London Business Analytics Group Lockdown Series

The London Business Analytics Group (LBAG) is a popular community data and analytics interest group. We started in July 2014 and have had so far over 60 talks and events. We aim to be a gentle introduction to data and analysis topics, accessible to everybody.

During the lockdown, we are running events online. We have a weekly series 'Solving Analytical Challenges with Power BI'. Each event is held twice so people can join at a convenient time - Monday at 1pm and Tuesday at 7pm London time. Full details and signup at the LBAG meetup page at https://www.meetup.com/London-Business-Analytics-Group/. I hope you can join us.

We also put short summary videos of the essential topics covered in each weekly event on YouTube here.
